Master's student in Finance & Quantitative Engineering at ECE, seeking an internship starting **April 2026**. Proficient in **Python** and **Machine Learning**, I am eager to leverage my skills to develop innovative models and contribute to research projects.

WORK EXPERIENCE

Market Risk Analyst <i>Crédit Agricole CIB</i>	Sept 2025 – Feb 2026 <i>Montrouge, FR</i>
- Monitored and validated daily, weekly, and monthly market risk indicators (P&L, VaR, Greeks, stress tests) for Credit Default Swap (CDS) portfolios. - Automated and streamlined recurring reporting workflows by developing VBA macros, significantly reducing manual processing time for report generation and distribution.	
Trading Support Analyst <i>Société Générale CIB</i>	Apr 2025 – Aug 2025 <i>Puteaux, FR</i>
- Analyzed corporate actions eligibility and executed traders' instructions, modeling event propagation in internal systems to assess P&L impact on Swap portfolios. - Engineered VBA-based automation for event propagation workflows to the Front Office, ensuring high data consistency and reporting efficiency.	
M&A Analyst <i>Compagnie des Alpes</i>	June 2024 – July 2024 <i>Paris, FR</i>
- Constructed and analyzed comprehensive benchmarks for major companies within the leisure sector to support strategic valuation. - Simulated final acquisition prices for multiple group targets to evaluate potential deal impacts.	

PROJECT

Machine Learning XGBoost Trading Strategy Python (<i>Pandas, Numpy, Sklearn...</i>)	Sept 2024 – Apr 2025
- Developed a high-precision predictive model for equity prices using XGBoost (Gradient Boosting). - Engineered technical features (RSI, MACD...) and implemented cyclical time encoding to capture intraday seasonality. - Achieved a normalized RMSE of 0.0097 through rigorous data normalization and hyperparameter tuning.	

EDUCATION

Master's in Quantitative Finance & Engineering <i>ECE</i>	Sept 2021 - July 2027 <i>Paris, FR</i>
- Coursework: Market Pricing & Risk, VBA, Python, Stochastic Calculus, Interest Rate Economics, Machine Learning, AI - Projects: Development of a European option pricer (Monte Carlo & Black-Scholes) and a yield curve stripping tool - Exchange Program: 5 months at University of Malaya, Kuala Lumpur, Malaysia	

EXTRACURRICULAR ACTIVITIES

General Secretary <i>ECE Finance Club</i>	Sept 2024 - Apr 2025 <i>Paris, FR</i>
Organization of 15+ events, including training sessions with a Bourse Direct expert (70+ participants), a trading room simulation (80+ participants), and the Next Challenge #4 with Université Paris-Dauphine.	
Web Developer <i>JEECE (ECE Junior Enterprise)</i>	Sept 2023 - Apr 2025 <i>Paris, FR</i>
Development of custom websites using Webflow.	

SKILLS & CERTIFICATIONS

Technical Skills | **Python**, VBA, SQL, Microsoft Office Suite, Bloomberg
Languages | French (native), **English** (bilingual, **TOEIC: 975**, 4 years of primary education in the USA), Spanish (school level)
Certifications | French Financial Markets Authority (AMF), Global Financing Solutions (EDHEC & SG), Financial Markets (Yale)
Achievements | **1st place at the Finance Accelerator Investment Banking** – AmplifyME Simulation, 12th/182 at Next Challenge #4
Interests | Tennis, Running, Gym, Entrepreneurship
